

VISION

We envision a Philadelphia in which everyone has the opportunity to achieve optimal health and well-being.

MISSION

Our mission is to improve the health and well-being of underserved Philadelphians by supporting access to quality care and services.

GUIDING PRINCIPLES

Equity - We believe that everyone should have an opportunity to live a healthy life, and we are committed to the elimination of health disparities based on socioeconomic status, race, ethnicity, national origin, gender identity, sexual orientation, age, disability, environment, and background.

Well-Being - We are committed to supporting services that improve individuals' perceptions of their quality of life along the six dimensions of wellness: occupational, physical, social, intellectual, spiritual, and emotional.

Collaboration - We believe that working collaboratively with other foundations as well as public and private organizations will increase our collective ability to make a positive impact on the health and well-being of people in Philadelphia.

Person-Centered Care - We believe that person-centered care that is respectful of individual needs, values, and preferences is a fundamental right.

What Works - We value practices of proven effectiveness and efficiency that can be sustained, and when appropriate, replicated and expanded.

Adaptability - We believe the most effective care and services are those with flexibility to meet the changing and diverse needs of evolving populations and communities.

Organizational Strength - We are dedicated to strengthening the capacity of nonprofit organizations to meet their missions and provide quality care and services to individuals in Philadelphia.

Engagement - We believe that people should be actively engaged in decisions that affect their health and well-being.

Innovation - We value innovative approaches: new ideas, methods, and solutions that create positive results.

Nonprofit Resilience - We believe that a strong nonprofit sector is one that represents the diverse needs of its constituents.
